

IMPROVING THE EFFICIENCY OF VULNERABLE HOUSEHOLDS

WxConnect Modules & Additional Features:

- Waiting List
- Inspections
- Scheduling
- Job Information
- Job Costs
- Deferrals
- Contractors & Crews
- Qualified Rebate Programs
- Mobile Ready

WxConnect is now offered through NASPO ValuePoint in CA, CT, FL, GA, IL, LA, MO and VT.

WxConnect is a comprehensive data management system that allows agencies to manage their low-income household Weatherization Assistance Program (WAP).

WxConnect lets agencies track their Weatherization applications and jobs, capture cost and completion data, and report on budgets and jobs through a centralized system.

Waiting List – Manage your waiting list which can be integrated with EAPconnect.

Job Management – Track the details of the job, costs, and completion information.

Scheduling – Schedule your jobs with contractors and crews.

Inspections – Create your own inspections and complete them in the system.

Documents – Attach files and photos to your jobs.

Deferrals – Track deferral work for your jobs.

Measures – Identify measures implemented on jobs and how they are funded.

Dashboards & Reports – Embedded dashboards and ad-hoc reporting within the system or use PowerBI to build your own.
